Weekly, one square for one month.....1.00
The above rates include both legal and commercial work.

THURSDAY.....AUGUST 9, 1933

A FALSE INTERVIEW.

The San Francisco *Daily Report* published a so-called interview with M. D. Boruck of the Triennial Committee, who was appointed to attend to the reporters and newspaper matters, in which he was reported to say: "But don't me if I ever give the weeklies any more cards of admission. They don't help along the Conclave. Why, I've sent out over 6,000 invitations to the press of the United States, but, thank God, only those in San Francisco will ever get the benefit of them." Mr. Boruck has a card in the *Bulletin* this morning in which he says: "An interview, purporting to have been held with me to-day, and published in the *Daily Report*, is a tissue of falsehoods from beginning to end; no such an interview having taken place. It is a cruel, gross and unprovoked libel upon me." We know that Mr. Boruck and the Committee desire to treat the press well, and no one need fear the contrary.

An Englishman in Paris has given the sum of £13,000 to the sumptuous American church now building in the Avenue de l'Alma. It is a national scandal, remarks the *London World*, that the English church is not worthily represented in the French capital.

A letter from the Sandwich Islands, in another column, gives one an idea, though probably a faint one, of the horrors of the disease of leprosy, so common there. It makes one more reconciled to live in Nevada, even in dull times.

WESTERN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE]

SAN FRANCISCO NEWS.

SAN FRANCISCO, August 7.

CHOLERA IN CHINA.

United States Consul Mosby, at Hongkong, in a letter to Dr. McAllister, quarantine officer, says that vessels have arrived at Swatow, China, with the cholera on board, and that a number of deaths have occurred. The cholera existed in Shanghai, and it is expected it will soon reach Yokohama, Japan, from where it could easily be brought here. A meeting of the Board of Health of this city was called to take prompt measures to protect this port. It was resolved that all Asiatic ports be declared infected, and that all vessels arriving here from them be quarantined until an examination is fully made by the quarantine officers.

IN A BAD BOX.

A member of the Grand Jury which indicted Harkins and O'Beirne in connection with the opium smuggling and alleged bribery case, says that before the Grand Jury, O'Beirne testified on oath that Gaffey owed him \$800, and afterwards borrowed \$400 more, for which Gaffey gave him a note for \$1,200, paying it in full at maturity. But in court O'Beirne swore that Gaffey did not owe him a cent when O'Beirne received this note from him. It is believed O'Beirne will be arrested and charged with perjury when the present case is determined.

THE COMING CONCLAVE.

General Schofield, commanding the Pacific Division, has accepted the invitation from the Garfield Monument Association, and has written, saying he would order four artillery companies, on foot, with battery K of the First Artillery mounted, to take part in the procession. Eighteen posts of the G. A. R. will be in line. It is proposed in commercial circles to make the 23d a holiday, as well as the 24th; the Produce Exchange has so decided, and other bodies will, it is thought, follow its example, closing up from Thursday evening to Monday morning. Governor Perkins, Grand Commander of the Knights Templar of California, has issued an order to the two Commanderies in this city, to repair in uniform, to meet and escort to his headquarters on his arrival here, Sir Benjamin Dean, Grand Master of the Knights Templar of the United States.

During the election on Monday, in Louisville, Kentucky, six prominent politicians in the Ninth Ward were arrested for bribery.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE]

A Confederate Reunion.

GALVESTON, August 8.

At the second and last day of the Confederate reunion there was even a greater display than on the first. The attendance was greatly increased, numbering about 50,000 people. The speech of General Lewis yesterday is generally condemned by all notables present, still it took with the crowd. Lewis was cheered while speaking, and the supposition is, the enthusiasm carried him beyond the bounds of discretion. In a speech General Cable declared that England and America can never have more than an unnatural friendship, while the American and purple clad people are linked by hooks of steel. He hoped to live long enough to lead ex-Confederates, under the stars and stripes, in a contest against England.

A Fatal Mistake.

DETROIT, August 8.

At Grand Rapids, a conductor on the Grand Rapids and Indiana Railroad, having received a visit by burglars at his house Monday night, was last night prepared for a second visit, and awaited them in the kitchen. His wife, awakened by a street noise, arose and passed through the room. Her husband, mistaking her for a burglar, fired, the ball taking effect in the forehead, and coming out near the right ear. She is alive, but unconscious. There are slight hopes only of her recovery.

A Cool Headed Switchman.

BEVERLY, Mass., August 8.

A terrible collision was averted at the depot to-day. The train going east was in the depot and without warning the Gloucester express instantly shot round the curve with air-barkes disabled, but when within a few feet of the train at the station, switchman Williams, with rare presence of mind, threw the wild train on a siding, thereby saving many lives on both trains. He will receive a handsome present and promotion.

The Iowa Storm.

DES MOINES, August 8.

A terrible hail-storm, passing down Nishnabotany Valley to-night, resulted in great destruction to growing crops and farm property. Mrs. Larson was killed and another person wounded. The hail fell to a depth of five feet in places. The trains on the branch of the Rock Island road and the main line of the Milwaukee road are blocked. The path of the storm was four miles wide. Everything was literally destroyed. The loss will probably exceed \$500,000.

He Wants Some More.

CHICAGO, August 9.

Paddy Ryan will publish in the *Daily News* saying his backer, Mr. Davies, informs him that a hall cannot be secured in Boston for the proposed glove match with John Sullivan before next January. That Sullivan having knocked out all imported talent he should give American slugs a show, and proposes a fight to take place in Madison Square Gardens, New York, within six weeks.

Drowned While Sailing.

BOSTON, August 9.

Last evening while John Fisher, aged 18, was sailing with two young ladies, a gust of wind struck the sail, and the boom swinging suddenly around, Fisher, and one of the ladies, named Winnifred Butler, were swept into the water. Fisher was immediately drowned, and Miss Butler died soon after being brought ashore.

A Journalistic League.

CHICAGO, August 8.

Representatives of press clubs from New York, Rochester, Providence and Cleveland met in the rooms of the Chicago press club this afternoon and took preliminary steps toward the formation of a National League of Journalism, whose object is a general affiliation among press organizations of the country.

A Hostile Storm.

COUNCIL BLUFFS, August 8.

A terrible rain and hailstorm swept through this section to-day. It was about two miles wide, beating corn and all growing vegetation into the ground. It is regarded as the most severe storm that ever visited western Iowa.

The Strikers' Ball.

NEW YORK, August 8.

Five thousand persons attended the concert and ball of the Brotherhood of Telegraphers to-night in Madison Square Garden. The whistle which called the operators out in this city opened the ball.

Killed in a Mine.

SLAT LAKE, August 8.

This morning a miner by the name of Samuel Prethor fell down the shaft of the Emma mine, at Alta, and was instantly killed; he fell a distance of 130 feet.

He Concludes to Resign—Cetewayo Wounded.

NEW YORK, August 8.

James Tanner, a distinguished member of the Grand Army of the Republic, has resigned the office of Chair-

man of the Republican General Committee of Kings county. Mr. Tanner says, in his letter resigning the chairmanship, "I find that the principal business of that office is presumed to be to secure impossible positions for a vast number of men in the Navy Yard and in other directions. I am constitutionally and physically unfitted for such a service and prefer to retire. Tanner is tax collector of Brooklyn. He lost two legs in the war.

The statement that Cetawayo is alive comes from Cetawayo's brother, who says Cetawayo took refuge in an isolated kraal after the late battle, having received two wounds in the leg. A correspondent at Natal is inclined to believe the statement.

The Telegraph Strike.

NEW YORK, August 9.

There is no particular change in the telegraph war; no cutting of wires last night and the Western Union business is going smoothly. The strikers are still confident of success, and exhibit no indication of weakening.

A Resignation.

NEW YORK, August 9.

The resignation of General W. J. Palmer of the Presidency of the Denver & Rio Grande railroad was tendered the Board of Directors to-day and accepted. General Palmer's action is said to be due to his connection with the Mexican National railroad.

A Successful Strike.

PROVIDENCE, August 9.

The strike at the Woonsocket Company's mill has ended, the weavers returning to work this morning. They wanted 20 cents a cut, and the demand was granted. This is an advance of one and one-half cents per cut.

FOREIGN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE]

Piratical Pilots.

LONDON, August 8.

Information is received here from the Straits of North, on the Yenikal, one of the most dangerous passages in the Black Sea, that an individual named Franceses, a former pilot of Italian Aregino, was at the head of a band of pirates of various nations—English, Italian, Greek and Russian—who made their living by disasters on the coast. They were in collusion with pilots, and charged large sums for assisting vessels which the pilots suffered to go ashore. In less than two years 50 vessels were stranded and had recourse to the assistance of these pirates. The English Marine Insurance Company, on learning these facts, sent an agent to Odessa to lay the matter before the authorities. A preliminary inquiry fully confirmed the suspicions of the public, and it is said some Government officials are compromised in the matter. The English insurance companies had paid many million roubles indemnity. A great many disasters occurred in calm weather, and many other suspicious circumstances were noticed, such as fortunes rapidly made by some of the pilots.

A Meeting Abandoned.

MONTREAL, August 9.

A national demonstration which had been arranged to be held on the estate of Parnell in Wycklow county, Ireland, on Sunday next, has been suddenly abandoned. It is stated that the abandoning was in consequence of an intimation from the authorities that the meeting would be suppressed.

An Attempt to Lynch.

TORONTO, August 9.

When the prisoner Andrews was being removed from the residence of the murdered man, Marony, after the inquest, a determined effort was made to lynch him, but with the special guards on hand and the assistance of the prisoner, he was conveyed to jail.

A Clergyman's Suicide.

QUEBEC, August 8.

When the steamship *Maritima*, from Glasgow, was coming up the river, through the straits of Belle Isle, the Rev. Mr. Sweet, Presbyterian minister, cut his throat and jumped overboard. The boat put about, and the body was recovered.

TELEGRAPHIC BRIEVITIES.

—Somebody continues to tie up the wires of the Western Union Company.

—Five car loads of Knights Templar left Galesburg, Illinois, for San Francisco yesterday.

—A large representation from six Chicago Commanderies, extended a welcome to eastern Knights Templar this morning.

—Everything is satisfactory between the British Government and DeLesseps concerning the recent agreement between DeLesseps and Gladstone concerning the building of a second Suez canal.

—The Spanish Cabinet was hastily convened yesterday, when it was resolved to suspend the constitutional guarantees wherever necessary. The recent outbreaks have caused this action.

TELEGRAPHIC BRIEVITIES.

—The Postmaster-General has ordered a free mail delivery in Los Angeles, Cal.

—Six hundred and eighty-two persons died of cholera in Egypt on Tuesday.

—Gillman's steam saw mill near Hull, Quebec, Canada, was burned last night; loss \$100,000.

—The schooner "Annie and Nellie" which was reported lost yesterday has arrived in Chicago.

—The Book-Binders' Association of Washington City contributed \$300 to the striking telegraphers.

—Thirty-two of the Hungarian rioters, spoken of in yesterday's dispatches, have been arrested. The authorities were compelled to put a cordon around the house of the defendant Scharf.

—The annual meeting of the American Forestry Congress met yesterday at St. Paul. The President said, at the present rate of consumption, the Northern States will soon be comparatively treeless, unless more trees are planted, and that we will soon have to depend upon the Gulf States for pine lumber.

—At a banquet given by the Lord Mayor of London, Gladstone said that the British Government went to Egypt on an unselfish mission, and desired nothing but the prosperity of that country; that the relations between England and France were likely to remain undisturbed. He also congratulated the country on the improved condition of affairs in Ireland.

FIFTY CENTS PER WEEK

All Classes of Legitimate Advertisements Not Exceeding Six Lines Inserted in this Column for Fifty Cents Per Week.

Pasture.
200 ACRES of good grass pasture at Glendale. Mrs. J. A. BLANDELL. aug8

BUTTER COOLING JAR.

—PRESERVES YOUR BUTTER COOL, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

ROBINSON'S CIRCUS.

Only Show on Earth that Exhibits More than it Advertises.

EVERYTHING BRAND-NEW AND MODERN.

JOHN ROBINSON'S

10 BIG SHOWS 10

COMBINED.

JOTTINGS.

The Bidwell stage went out this morning loaded down.

Five car-loads of emigrants went away this morning.

Wells-Fargo is handling an immense amount of freight for the southern country.

Quite a number of patients from the asylum attended the circus and enjoyed it very much.

The Union Square Theater Company of New York passed west this morning for San Francisco.

The best in the world—Brunswick, Balke & Co.'s billiard and pool tables at Chase & Thyes.

County Superintendent of Schools D. Allen, left this morning for Walker lake to be gone a few days.

Forty-three cars are used in the transportation of Robinson's big show, and some of them are 60 feet long.

A. L. Nation and wife left this morning by stage for Quincy, Cal., and Mrs. Hunsinger and Mrs. Brunson were passengers by the same stage for Susanville.

The way the country people who came in to see the show to-day, hunted the popular resort kept by Chase & Thyes shows that they know where they are well treated.

The noon train on the V. & T. brought to town a liberal delegation from Washoe and Steamboat valleys, who, like all the rest, want to just "let the children see the animals."

The following placard hangs in a Hawthorne store window:

Peppermint Pie for Head
Belle for Belle
Toth

A sea lion, a California lion and two kangaroos arrived from San Francisco by Wells-Fargo this morning, consigned to John Robinson, the circus man, who was here to receive them.

Never until the advent of the firm of Knowles & Bainbridge have the housewives of this community had a chance to select kitchen furniture from a complete stock of all the latest styles.

It is a rule with the proprietors of the Palace Hotel, to return the money to any patron who complains of the treatment he receives at their house. No complaints ever having been made, no money has been refunded.

Sixteen yards for a dollar is what a GAZETTE reporter heard last evening while passing the store of Levy & Bros. The above remark referred to a stack of calico's which were being examined by a half dozen ladies.

It is a satisfaction to trade with a firm that you are not obliged to watch while weighing out a few pounds of sugar or any other article that goes into the scoop scales. Down weight is the rule in the store of A. Lindley & Co.

A cage of lions belonging to the circus, which had been somehow considerably jammed out of shape, was put in the hands of McFarlin to repair. Considering that the cage imprisoned three lions while being straightened and mended it was no easy task.

THE CALLENDERS.

A Very Pleading Entertainment Wednesday Evening.

A reporter is not obliged to draw on his imagination in the slightest degree in order to speak favorably and kindly of the very satisfactory and pleasing entertainment given by the Callenders at the Nevada Theater Wednesday evening. The instrumental music was well selected and faultlessly executed and it can be truthfully said that the singing was far superior to any ever before presented by a minstrel troupe to a Reno audience. The drilling of the Zouaves, the dancing and, in fact, everything presented was first class. One thing which pleased the audience was the almost entire absence of far fetched puns and "gags" by the end men; what were presented were entirely new—something remarkable in a minstrel performance. The singing of the quartette embodying the Hyers sisters was well worth the price of admission.

The Big Circus.

The *Shower State* of yesterday has the following to say about the big show of John Robinson, which is in Reno to-day: Robinson's circus and menagerie arrived last night, and this morning a canvas town of no mean proportions sprung up as if by magic, between Cunningham's lumber yard and the cattle corral. The show is unmistakably larger than that of last year, and there are many rare animals in the menagerie. The horses, of which there are 100, comprise about as fine a collection of the equine species as was ever seen on the Pacific Coast.

Everybody is using, and everybody is recommending to everybody's friends, Brown's Iron Bitters as a reliable iron medicine, a true tonic.

A Gold Gatherer.

The papers report that Captain Townsend has invented an amalgamator to be attached to the rudder of a ship to gather up the microscopic atoms of gold and silver known to exist in sea water. If Mr. Townsend says so there are men in Reno who will bet that he has made such a discovery.

THE KANAKA CURSE.

Leprosy on the Increase in the Sandwich Islands.

HONOLULU, S. I., Aug. 2, 1883.

A sight your correspondent witnessed last night recalled a subject which much has been written about on the Pacific coast, and yet of which not "the half has ever been told." It was after we had returned from work, about 12 o'clock at night, and we were sitting on the "verandah," getting the benefit of the cool air, which can only be had at that unseasonable hour, when our attention was attracted by what at first seemed to us some kind of a military procession, but which on inquiry we found to be the "leper guard."

In a common two-seated spring wagon were some 15 persons, of most every nationality, each of whom vied with the others as to which could produce the most heart-rending moan or blood-curdling scream. These persons were lepers (or supposed to be), and they were being taken to the Dispensary or Branch Hospital.

The wagon was surrounded by a squad of 20 mounted police, for what object your correspondent knows not; but his impression is that, if truth were known, not one-half the occupants of that wagon were lepers.

Two libel suits, just tried here, have brought to light some most curious facts concerning this business. The physician in charge of the Government Hospital for lepers sued to prove that the *Saturday Press* had libeled him, in saying that he was a "quack and a charlatan."

The verdict of the jury, however, has proved quite the contrary. It appears that the Government has

A STANDING REWARD

Of \$200 for each and every case of leprosy cured. This physician, Fitch by name, came into his position about a year ago, by means best known to himself and the Board of Health. Since he went into office, over 600 persons have been sent to the Government Dispensary, of which he has charge, as lepers, and of this number a good percentage have been discharged as "cured."

As leprosy has always been considered incurable, these reported "cures" afforded the "opposition press," as the anti-Government papers here are termed, a fine opportunity to make a point. Hence the so-called libel, the trial of which has elicited the fact that these persons discharged as "cured" lepers, or a majority of them, had never been afflicted with that disease, but had had, and were cured of, various forms of syphilis.

This discovery has, of course, created much talk, and a great deal of public interest in what is here considered the chief national subject of consideration—leprosy—and has aroused people to the fact that this danger to public health and consequent prosperity, is not, as has been supposed, on the decline, but is greater than ever. Perhaps it would be of interest to your readers to know that there is on an island in this kingdom—Molokai—a tract of land set apart, and the expenses of maintaining it sustained by the Government, called the "Leprosy Reservation," where there are 2,000 unfortunate victims of this terrible disease massed together, there to await their lingering, dismal but certain death in its most awful and sickening form. RENOITE.

PRIZE EMBLEMS.

The Eureka Lodge Carries Off Both Prizes.

Beatific Lodge, No. 7, succeeded in capturing both of the prizes which were offered by R. B. Mitchell, Grand Chancellor, for the largest number of new members taken in during the year ending July 1, 1883, and for the individual member taking in the largest number of propositions during the same period. The first prize is a handsome banner, which Mr. Mitchell had made expressly for the occasion. The medal is now the property of H. B. McKee of Beatific Lodge, who succeeded in taking in the largest number of any individual member. It is an excellent piece of workmanship, in the shape of a triangle, with the usual emblems of the Order.

A Lively Runaway.

A two-horse team belonging to County Commissioner Frey started for home from the freight depot last evening without a driver, crossing the tracks at the east side of Chamberlain's Hotel, turning up Commercial Row to Virginia Street, thence across the bridge, turning the Courthouse corner in good shape, not having struck a thing on the whole route. They were brought up by Constable Nash at Blum's ranch who followed in a buggy—no damage reported.

The Circus in Reno.

John Robinson's advertising had prepared the public for a good show, and they were not disappointed. His brains were obtained by hot boxes, so that it was late when they got out on the parade, but they got around in time to give the afternoon performance in good shape. The canvas was pitched on the same lot as last year.

Well Wedded.

C. H. E. Hardin, a member of the last Legislature, was married in San Francisco on last Tuesday to a daughter of N. H. A. Mason.

PERSONALS.

S. W. Bowman of Forest Hill is in town.

George Tuffy is able to walk to the office.

George B. Hill, the commercial agent, arrived from the East on this morning's train.

Hon. Rollin M. Daggett, U. S. Minister to Honolulu, has arrived in San Francisco.

Charles and Frank Boskowitz were passengers for the eastern part of the State this morning.

Immense Commissioners Huffaker and Adams arrived from the south by the Virginia & Truckee this morning.

Judge T. D. Edwards of Carson stopped over at Elko on his return from the East. He will probably arrive here to-morrow morning.

Frank C. Phelps, editor of the *State Journal* at Lincoln, Neb., and an old friend of R. P. Chapin and wife of this place, was a passenger to California this morning.

P. Mulcahy of this place and Alex. Laporte of Carson returned this morning from the Grand Lodge of the Knights of Pythias at Eureka.

C. W. Perry, the traveling agent of Gallatin & Folson, has just returned from a trip to the Sink of the Carson and the Humboldt Meadows at and near Lovelock's.

He reports the grain and grass crop in both localities to be unexcelled by any he has ever seen.

Johnny Lowlow made a pleasant call at the GAZETTE office this morning. John Robinson does business in a different way from most folks; he sends some good talker around to the newspapers to pay his bills and remember the printers. That was Mr. Lowlow's errand.

THE BOSS GUN.

Will Shoot Through a Solid Block of Iron Two Feet Thick.

New York dispatches mention the arrival of the great multi-charge cannon, which is expected to constitute a new departure in ordnance. Heretofore all cannon have received the full charge of powder in the breech, but the multi-charge gun contains four "pockets" underneath, each of which holds 28 pounds of powder, while the breech itself holds but eighteen pounds.

As the projectile starts from the breech, the force of this entire 180 pounds of powder is concentrated on it, one "pocket" after another rapidly discharging its contents. The gun is 25 feet long and weighs 25 tons. It is rendered doubly strong by a steel lining, and it is thought, can hurl a projectile through a solid piece of iron 24 inches thick.

It will shoot, so it is claimed, for 12 to 15 miles, and is intended for both harbor and naval defense. The present gun was manufactured at a cost of over \$50,000. The projectiles with which it is loaded weigh from 100 to 150 pounds.

A PAYING MINE.

One Hundred Dollars Ore and no Stock For Sale.

Marion Howell, just up from Rye Patch, brings a fine specimen of ore from the Humboldt Queen mine, near that place, says the *Silver State*. He says J. W. Mills, owner of the mine, is taking out, with four men, about eight tons of ore a day. He has now on the dump some 900 tons of ore, that will average over \$100 to the ton. The ore is assorted when taken out and placed in different piles, the high grade being worth over \$300 to the ton, as has been proved by actual working tests. The ore on the dump is estimated to be worth \$200,000, after allowing a good margin for hauling and milling. The Humboldt Queen Company levies no assessments, and offers no stock for sale, and consequently does not care what the public thinks of the property, but there is no question about the mine being very valuable.

A Valuable Hint.

It is well, when setting out on a railroad journey, to slip a few grains of flaxseed into the pocket, says the *Bodie Free Press*. Then if you are so unfortunate as to catch a colder under your eyelid, the pain may be allayed by slipping a seed of flax in after it, where it will swell in a few moments and give out its peculiar mucilaginous water, bathing the eye, keeping down inflammation and swelling, and wrapping the spark in it, and causing it to slip out without further trouble.

Sheep Going East.

Over 100,000 sheep have passed through Cane Springs, Humboldt county, Nevada, this Summer going east. A flock of about 10,000, owned by California to Nebraska, arrived there over a week ago, and seemed unable to proceed further, as both sheep and men were tired out.

A Nice Present.

A while ago Jack Hutchinson, engineer on the V. & T., received from a friend of his, John Sturgeon at Guymas, Mexico, a cane made of Mexican iron wood, which he had beautifully mounted with silver bullion, and this morning sent it to his brother-in-law, Dr. Carlisle, who is living in Kansas.

Have Been Assessed.

The managers of John Robinson's show stole a march on Washoe county this time. They voluntarily had the show assessed in Elko county.

BATHING AT TAHOE.

A Diffident Young Lady Takes an Imaginary Bath.

Speaking of the swimming craze at Lake Tahoe, a correspondent of the San Francisco *Report* tells this good one: Among the late arrivals at the Tallac House is a young lady from Monterey. She has bathed daily down there and swims well.

The day after her advent at the Tallac, when all the world was abroad, at the lake shore, her young ladyship, gotten up to perfection, looking pink and pretty, lost her heart and became nervous at the idea of bathing before a lot of strangers.

At Monterey it was all right, for she knew everybody, but at Tahoe she was frightened. Convincing herself that no one was about the house, she went into the parlor, threw off her waterproof, and, drawing the piano stool into the middle of the room, placed herself gently on it, and went gracefully through her natorial evolutions.

A suppressed fitter disturbed her as would a breaker, and, glancing up, she saw two young gentlemen whom she had overlooked in her survey of the premises. She did not wait to accept an apology, and she will not grant them their request for a tintype of herself as Lurline.

The Indians on Hand.

Reno is full of Indians to-day of every tribe. Mr. Lowlow says there are some here that started in at Elko, and have been on hand every time the circus stopped. They ride free on the trains, so it makes it a good way to pass the time. Tom Clarke's tender was covered with Washoes this morning. The company charges them full fare to get into the tent.

Nearly Ready.

A GAZETTE reporter learns from A Lindley that the English Mill will positively start up the fore part of next week. The firm of A. Lindley & Co. have 80 men at work on their mines near White Plains, and eight men at the mill making some necessary repairs. The balance of the mill crew will be on hand next Monday.

The "Weekly Gazette."

The WEEKLY GAZETTE, which is issued to-day, contains a summary of all local and foreign news to date, price \$2 per year. Send for a sample copy.

Drugs and Patent Medicines. Of every description sold cheap by John F. Myers, Virginia street, next to Barnett's.

Preaching on Sunday.

S. N. Haskell, a Seventh Day Adventist, will preach at the Congregational Church next Sunday morning and evening, at the usual hours.

Funeral Notice.

The funeral of the late Mrs. John J. Hughes will take place from the Methodist Church to-morrow, at 2 o'clock. Friends and acquaintances of the family are invited to attend.

Collection Suspended.

The fine imposed upon E. D. Sweeney by Judge Murphy, has been suspended for 30 days in order to give Sweeney a chance to collect the money.

DIED.

HUGHES.—In Reno, August 9, 1883. Mrs. John J. Hughes.
